

GROKSURF'S SAN DIEGO

Posted by George J. Janczyn
July 24, 2010

This is a letter sent to the San Diego City Council in support of an advanced water treatment plant needed for the [Water Purification Demonstration Project](#) approved years ago but threatened by Councilmembers who would like to see the project killed. A vote on the plant is scheduled for the [July 27, 2010 meeting](#) of the San Diego City Council.

The [Indirect Potable Reuse Coalition](#) (IPR Coalition) was formed in late 2009 to perform public outreach and advocacy for the Indirect Potable Reuse process (to purify reclaimed water) as a component of San Diego's drinking water supply.
